PROFESSIONAL SUMMARY

Frontend-focused Web Developer with hands-on experience in React.js, MERN Stack, WordPress, and IoT dashboard integration. Skilled in deploying applications via Vercel and Netlify, containerizing services with Docker, integrating PostgreSQL databases with AI models, and delivering responsive web solutions for real-world clients.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Responsive Design, WordPress, Elementor, Theme Customization

Backend & DB: Node.js, Express.js, MongoDB, PostgreSQL, REST APIs, AI Model Integration (Frontend & Backend)

DevOps & Deploy: Docker, Vercel, Netlify, Git, GitHub, MQTT Protocol, Thingsboard IoT Integration, CI/CD

Tools: Figma, Trello, MS Office, npm, Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Engineer – OLIVE Technical Service by FFC

Jun 2024 – Aug 2024

- Integrated IoT devices with Thingsboard dashboards to visualize real-time sensor data and device metrics.
- Containerized IoT services using Docker; configured MQTT pipelines for seamless device communication.
- Developed React.js frontend interfaces for IoT dashboards; integrated PostgreSQL with AI models for intelligent analytics on frontend and backend.

Web Development Intern – Strategos

Jun 2024 – Aug 2024

- Built and customized responsive WordPress websites using Elementor, HTML5, and CSS3.
- Deployed client websites on Netlify and Vercel; managed domain configurations and CI/CD workflows.

Virtual Assistant – Aircel (du)

Aug 2021 – Feb 2022

- Managed digital communications, sales coordination, and reporting with strong time-management skills.

PROJECTS

Smart Guard Pro – Thingsboard · Docker · MQTT · PostgreSQL · AI Integration

- Built AI-enabled IoT solution integrating React.js frontend and Node.js backend with ThingsBoard, PostgreSQL, and Docker.
- Designed real-time monitoring dashboards and AI-powered analytics pipelines; deployed via Docker containers.

Parkify — Smart Parking Web App – FYP · MERN Stack · Vercel · MongoDB

[Live Link](#)

- Developed responsive React.js UI with real-time slot visualization and REST API backend using Node.js & Express.js.
- Deployed full-stack application on Vercel with MongoDB as the database.

Octopus Design & Project Management – WordPress · Elementor · HTML · CSS

[Live Link](#)

- Designed and developed a full business website including landing pages, service pages, inquiry forms, and CTA sections.
- Deployed on Netlify with custom domain configuration; optimized for performance and cross-browser compatibility.

TG Trek & Tours — Travel & Tourism Website – WordPress · Elementor · HTML · CSS

[Live Link](#)

- Built a complete tourism business website with tour packages, landing pages, and inquiry/booking forms.
- Deployed on Netlify; ensured responsive design and fast load times across all devices.

EDUCATION

BS Software Engineering – Lahore College for Women University

2021 – 2025

Intermediate in Computer Science (ICS) – Aspire Group of Colleges, Lahore

2019 – 2021

CERTIFICATIONS

- Introduction to Agile Development and Scrum — Coursera
- Web Development Certification — UET, Lahore
